## netfiles receives BSI C5 certification

netfiles has received a certificate from independent auditors in accordance with the requirements of the Cloud Computing Compliance Controls Catalogue (C5) of the German Federal Office for Information Security (BSI)

Burghausen, February 2, 2021 – netfiles GmbH, one of the leading providers of virtual data rooms, meets the requirements for the security of cloud services defined by the German Federal Office for Information Security (BSI) in the Cloud Computing Compliance Criteria Catalogue (C5). C5 provides controls that include information on data storage location, jurisdiction, information disclosure requirements, existing certifications, and a detailed description of the services. The attestation serves customers and interested parties as proof of compliance and a decision support when selecting and using cloud services.

"The BSI's Cloud Computing Compliance Control Catalogue covers all the important criteria of a securely operated cloud service. With the C5-Testat, we are pleased to be able to offer our customers further, recognized and reliable proof of information security at netfiles. With the C5 certificate, customers can be sure that netfiles offers the highest level of security and that all compliance requirements are met," explains Thomas Krempl, Managing Director of netfiles GmbH.

## About netfiles GmbH

netfiles GmbH was one of the first German providers of virtual data rooms. Almost 20 years of experience have established the company as a leading player in this field. netfiles enables businesses to securely share and exchange files and provides a central online document management facility secured by detailed access rights while allowing mobile access. In this cloud-based solution, data can be shared easily and securely within a company, a project team or with customers and suppliers. Secure data rooms can also be set up for applications such as M&A projects, due diligence audits, asset transactions, board communication, property management and contract management.

Companies can test the netfiles data room free of charge and without obligation for 14 days:
